

To whom it may concern:

RegIQ Solutions is a SaaS start-up company dedicated to changing the way medical devices are brought through the regulatory process by introducing MAGELLAN, the industry's first Device Compliance Platform.

I have contracted Lead Generators International (LGI) in the past and experienced excellent results.

When I joined RegIQ Solutions, I absolutely had to achieve success with our appointment setting and lead generation efforts. Our investors and partners did not have the patience for a poorly executed campaign, so I went back to LGI once again.

With LGI, I attended qualified appointment after qualified appointment. I also followed up on a large volume of qualified leads. The LGI campaign was developed with a focus on creating a strategic plan, well-crafted messaging, an accurate and well-targeted calling list, detailed campaign reporting and management, and the best North American callers in the industry. LGI supplied and managed every aspect of the campaign to an exceptionally high standard. Once again, I invested heavily in LGI and they delivered on all their promises and exceeded my expectations. I couldn't be happier with their results!

Very best,

Mark Thomson  
President & CEO
