

To Whom It May Concern:

As competition in every aspect of the business-to-business marketplace continues to grow, firms need to seize every advantage possible to increase their market share. At Rayton Packaging, we are committed to being on the cutting edge of both technology and service—that's why we have patented technology like the Dewlock™ System, and why our team has a world-class reputation for service.

With a staff of more than one hundred people, and offices in cities ranging from Santiago, Chile, to Montreal, Quebec, we have gained the reputation of doing what we say we will do. Many of our clients have been with us for more than twenty years because of our commitment to service and expertise in sales, films, printing, research and development, and manufacturing.

At Rayton, we strive to exceed our customers' expectations, and we demand that same high level of performance from every company we work with. Lead Generators International (LGI) delivered what we hoped for and more.

LGI took our database and made many new highly qualified leads in a short period of time. They represented us well, with good people making calls and generating the results we required. They did an excellent job for us and we look forward to working with them again.

I am pleased to recommend LGI without hesitation.

Sincerely,
