

SEKIGO

To whom it may concern:

By way of introduction my name is Eric Candelaria an Angel Investor and owner of a real estate development company, Sekigo.

I retained Lead Generators International (LGI) to help find me a suitable business to acquire. I provided my requirements in terms of; revenue, location, industry type and minimum EBITDA and LGI sourced the contact list, created a compelling script and email collateral and made the required phone calls to these businesses to introduce me, qualify the Prospects, and set up meetings for me to meet with these businesses.

The campaign is complete and LGI delivered the guaranteed number of appointments both booked and attended. The engagement was active and feedback was bidirectional which increased the accuracy of the campaign.

In my view, LGI provided a cost-effective search alternative to a traditional business broker by billing at a fixed rate instead of a percentage of sale.

Overall, I am very happy with the work LGI performed and am happy to recommend them to anybody looking for business-to-business appointment setting.

Regards,

Eric Candelaria
Managing Director
