

To whom it may concern:

Silver Creek Media Inc. provides multinational clients with effective communications engagement solutions to reach customers, investors, and employees through virtual events, video production, podcasting, online marketing, and webcasting services.

We have a large number of formidable competitors in our marketplace. When we contracted with Lead Generators International (LGI), they were able to reach a qualified number of decision makers and influencers within our target market and managed to book discovery meetings for our team with these prospects. Ultimately, LGI delivered a steady stream qualified appointments.

We initially engaged LGI in a test pilot, and we were happy with the results (particularly the quality of LGI's front line people) and we have engaged LGI on an ongoing basis. Results continue to be very strong.

If your company is in a competitive market and would like an opportunity to speak to quality prospects we highly recommend LGI.

Sincerely,

A handwritten signature in black ink that reads 'T. Patafio'.

Tony Patafio
